

## **Cyber Security Webinars**

Do you wish to increase your knowledge and skills, and enhance your chances of being hired by top IT and Information Security companies? If your answer is yes, join the growing family of InfoSec Careers Network. We started operating in 2008 with the dedicated aim of helping people boost their InfoSec careers. We are a platform acting as an intermediary between employers and job-seekers, as well as offering cutting-edge security resources to aspirants looking to rise above the rest. Cyber security webinars are among our free resources and can be accessed by those who have registered with us.

### **The Content for the Webinars is Supplied by Industry-leading Cyber Security Professionals**

Our security resources are carefully designed to help you get your dream job, a promotion or to learn about all the hacks of this industry. Some of the biggest names in the IT and Information Security industry provide us with the content for the webinars. If you register with us, you will have access to these webinars completely free of cost.

### **Sign Up for our Newsletter to Get an Alert for Upcoming Webinars**

Our cyber security webinars are enriched with the latest information on cyber security technology, jobs and more. If you wish to get noticed by top recruiting companies, you simply have to stay ahead of the rest of the applicants. The webinars will help you to widen your knowledge base and add to your skill-set. The best way to stay updated about upcoming webinars is by signing up with us. We will keep you updated about future webinars, as well as security reports and offers on training and certification courses.

The best part about our cyber security webinars is that you can re-watch it at your own convenience. If you are ready to take your InfoSec career to the next level, register with us and find great opportunities.
